Section 3 Member Classification

A. Members shall be classified each year as Certified, Approved, or Registered.

1. The Division Board has full authority to change any member's classification whenever, in its opinion, such change is in the best interest of the Division.

B. At the end of each high school baseball season, each member shall submit a classification form to the chapter secretary. Failure to submit a classification form by February 1st of the following year shall result in the member being classified at Registered.

C. Chapters shall maintain the classification forms for their records and will submit the ranking of each member for whom they pay membership fees to the TASO state office.

D. The member shall be classified by accumulating the appropriate number of proficiency units, minimum exam score, and TASO-Baseball years of membership as shown below. If a member does not meet all of the qualifications for a classification, that member shall be ranked at the next lower classification for which the member meets both proficiency points and exam score.

Classification	Last Completed Year Proficiency Units	Last Completed Year Exam Score	TASO Baseball Experience
Certified	**75** or greater	**80** or above	**7** completed years and over
Approved	**65** or greater	**75** or above	**3** to **6** completed years
Registered		**70** or above	**Less than 3** completed years

E. Proficiency Units

1. Proficiency units are earned by the number of years of experience, the prior season's exam score, attendance at the state meeting, attendance at a regional clinic, attendance at a clinic on rule changes and the number of games worked the prior season.
